

Course Summary

It is suitable as a base for on-going learning, as an exam revision support and as a refresher for more experienced surgeons at Consultant or equivalent level. This Course covers the most important and topical areas of paediatric urology with lectures, clinical case presentations, interactive discussions and examination-based viva practice.

Speakers are nationally and internationally recognised authorities in paediatric urology, nephrology, oncology and radiology.

On the Friday after the official course is over, viva exam preparation is available. The number of viva participants is limited, so please reserve your course early in order not

Urology revision Course

12-13th September
2013

BAPU 2013

The British Association of
Paediatric Urologists

Paediatric Urology for all Levels. Starting off or before the exam.

This annual, two-day course is designed to cover the length and breadth of the intercollegiate curricula in both adult urology and paediatric surgery, and offers an update in current thinking and practice in paediatric urology.

“The 2 day course can be a refresher, update or revision”

Places are limited so please book well in advance to ensure you are able to attend.

Accommodation is on a first come, first served basis.

Booking is now on line via the BAPU website and the BAPU Webcollect system.
